Updates for version 10 3 6Date published: 1/6/20In this release, we addressed an issue that created zero-length files whenever you copied a folder from the remote session to the local machine using file copy and paste.. In addition, we've included the following updates:Control+Option+Delete now triggers the Ctrl+Alt+Del sequence (previously required pressing the Fn key).. Other updates in this release include:Cleaned up the workspace refresh experience and UI.. Updates for version 10 3 7Date published: 1/6/20In our final update of the year, we fine-tuned some code and fixed the following behaviors:Copying things from the remote session to a network share or USB drive no longer creates empty files.. Here's where you'll find the latest updates When I opened a RDP connection from my Mac to the Windows Server I would ge the following error: 'Remote Desktop Connection cannot verify the identity of the computer that you want to connect to' Since I was able to connect from a Windows Machine I was under the assumption that the RDP problem layed with my Mac.. Temporary files used for clipboard file copy and paste are now deleted automatically when you exit the app, instead of relying on macOS to delete them.. Unicode mode allows extended characters to be typed using the Option key on a Mac keyboard.. Addressed a smart card redirection issue that caused the remote session to stop responding at the sign-in screen when the 'Checking Status' message appeared.. Updates for version 10 3 5Date published: 1/6/20We made this update with the help of everyone who reported issues. ae05505a44 Free Java Download For Android Samsung Tablet
